World Traveler: Discovered all named locations

Infinite Eridium

True Vault Hunter Mode

Complete Normal difficulty story mode.

Minecraft enemies and outfit

In the Caustic Caverns underneath Sanctuary, near the furthest edge, there is a shallow incline. If you go along the left-most cliff beside the incline, you will find Minecraft blocks. Breaking them will lead into an area with creepers from the Minecraft games, a golden ore block with a normal outfit, and a special outfit for defeating the creepers.

Carry one more item in your backpack

You must have 2 class mods for this to work. Once your backpack is full, switch your currently equipped class mod for another one in your backpack (you can then re-equip your original class mod after you've done this). Then exit the backpack menu and you can now pick up one more item and have a backpack with 28 items in it instead of maximum 27. EXPAND TO SEE ALL

[end]
